TURN-KEY PROJECTS

Experience, Knowledge, Perfect Management

STM specializes in the supply of complete bottling lines for various products. Over the past 30 years we have delivered and successfully put into operation more than 300 bottling lines throughout the world. STM designs and assembles lines from 1000 to 25 000 bph of production output range in such types of containers as PET, GLASS, HDPE with capacities ranging from 0.2L to 20L.

STM provides complete lines for the production of PET containers from preforms and bottling lines for various food products and chemicals such as: carbonated water, non-carbonated water, beverages, juices, carbonated beverages, beer, acids, milk, milk products, oils, chemicals. Customer support and cooperation programme is delivered using **TPM (traditional project management)** and **Prince 2 methodology** in the project management and process control. This provides measurable benefits for the customer such as: shortened lead times, high flexibility in managing changes, clearly defined final project.

Systemic solution for flexibility and effectiveness

Professional management

1

ANALYSIS

We investigate client's needs and expectations, taking into account infrastructure and future production plans.

2

CONSULTING

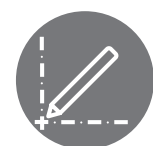

Congeneric consulting, including machines sitting and choice of particular elements.

3

ENGINEERING DESIGN

Design of chosen solutions.

4

PRODUCTION

Assembly and machine's testing.

5

TRANSPORT AND START UP

Worldwide shipping.
Final installation.
